AN ENTHUSIASTIC START TO METALTECH AND AUTOMEX AT MITEC

It's official – METALTECH and AUTOMEX are back with a bang! An eager crowd arrived at the Malaysian International Trade and Exhibition Centre (MITEC) today in excitement for the return of face-to-face networking with fellow industry players.

In addition to 250 companies from the metalworking, machine tools, automation, robotics and other related industries participating in the Hybrid Exhibition, national Group Pavilions are also set to draw great interest from visitors. This year's event showcases five national pavilions from China, Germany, India, South Korea and Singapore, each of which will feature the latest technologies, innovations and industrial solutions from their respective countries.

Reflecting its evolution as a Hybrid Exhibition, a special Virtual Exhibition space has been constructed at Hall 2, which provides visitors with workstations where they can browse international exhibitors and communicate directly with them, including the option to have a live video chat.

Varieties of activities and amenities have been prepared for the expected 10,000 visitors from 20 countries and regions that will visit METALTECH and AUTOMEX this week, including an Industry Knowledge Sharing series of Tech Talks, special lounge areas for visitors and exhibitors to relax and network, and a wide variety of food trucks to appease visitor hunger pangs, amongst many others. We look forward to seeing you here!

MITI DEPUTY MINISTER To Officiate Opening Ceremony on 23 JUNE 2022

The official opening ceremony for METALTECH and AUTOMEX 2022 will be held on **23 June 2022 at Hall 2 from 10am onwards**. We are thrilled to be welcoming the **Deputy Minister of Ministry of International Trade and Industry (MITI) Y.B. Senator Datuk Lim Ban Hong** as our guest of honour to officiate the ceremony.

TECHNOLOGY INSIGHTS FROM INDUSTRY THOUGHT LEADERS

To provide our participants with a knowledge-driven experience, METALTECH has continued to organise its eye-opening seminar series that will run concurrently with the exhibition. A wide variety of physical and virtual seminars held at Hall 2 from Wednesday to Friday.

The acceptance of Industry 4.0, Internet of Things (IoT), Automation and Robotics technologies is becoming increasingly important for companies who wish to maintain their competitiveness within the industry. Thus, this year's Tech Talks series places great emphasis on providing industry players with valuable and actionable knowledge for enhancing the technological proficiencies of their operations.

With seminar topics such as "How to Turn a Regular Factory into a SMART Factory", "Kickstart Your Industry 4.0 Journey", "Digitalize Your Business, Accelerate Innovation" and many more presented by top players within the industry, attendees will gain crucial knowledge and advice on how to take the next steps in their journey towards digitalisation and automation.

DAY 2 | 23 JUNE SEMINAR SCHEDULE

PHYSICAL EVENT

VIRTUAL EVENT

Company : **MURATA ELECTRONICS (MALAYSIA) SDN BHD**
 Time : 1:00pm - 1:30pm
 Topic : **Accelerating Malaysia IR4.0 – Pivoting Factory Operations with Condition Monitoring**
 Speakers : **Kazuya Kitahata**, Deputy General Manager, Sales Department
Nicholas Hau, Product Engineer, RF Wireless Connectivity Section

Company : **MAGMA ENGINEERING ASIA PACIFIC PTE LTD**
 Time : 1:30pm - 2:00pm
 Topic : **Cost and Energy Saving using MAGMASOFT®**
 Speakers : **Mr. Irawan Hariyanto**, Business Development Manager for MAGMASOFT®

TAIWAN SMART MANUFACTURING

Company : **PRECISION MACHINERY RESEARCH DEVELOPMENT CENTER (PMC)**
 Time : 2:00pm - 2:30pm
 Topic : **Opening Speech**

Company : **SHIN-YAIN INDUSTRIAL CO., LTD.**
 Time : 2:30pm - 2:45pm
 Topic : **Tooling Solutions to Achieve Intelligent and Automatic Machining**

Company : **DETRON MACHINE CO., LTD.**
 Time : 2:45pm - 3:00pm
 Topic : **Magnify the Value of Machinery**

Company : **EARTH-CHAIN ENTERPRISE CO., LTD.**
 Time : 3:00pm - 3:15pm
 Topic : **Professional Magnetic Tools Manufacturer**

Company : **JAINNHER MACHINE CO., LTD.**
 Time : 3:15pm - 3:30pm
 Topic : **One-Stop Solution Provider That You Can Trust**

Company : **SHIEH YIH MACHINERY INDUSTRY CO., LTD.**
 Time : 3:30pm - 3:45pm
 Topic : **SEYI Smart Stamping Solution**

Don't Miss the Special Feature on Taiwanese Smart Manufacturing

Date: 23 June 2022

Under a special programme organised by the Precision Machinery Research and Development Center (PMC), METALTECH will feature five Taiwanese companies in a special technological product showcase, which will take place at **the seminar presentation room from 2pm onwards**. With Taiwan recognised as a global leader in technology and smart manufacturing, this is your opportunity to gain exclusive insights into the latest technologies that are being innovated within the country's industry.

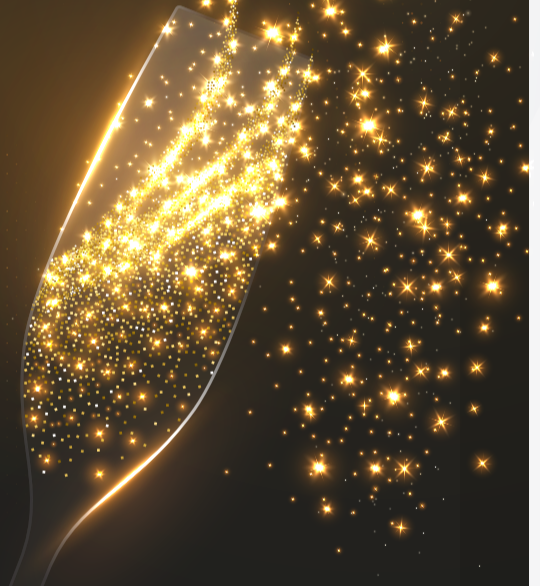

SuPAR™ set for Asian Market Launch at METALTECH

Get ready for the future of quality inspection with SuPAR™, an augmented reality software that will enhance your error detection, remote inspection and digital communication capabilities. The new technology that has only recently been released to the Asian market allows you to match actual machine parts with detailed CAD diagrams in real time to spot discrepancies and immediately report findings. Find out more about SuPAR™ at the SITA pavilion at **Booth 3340 at Hall 3**.

A SPECIAL REUNION PARTY FOR EXHIBITORS ON 23RD NIGHT

All exhibitors are invited to attend METALTECH Reunion Party that will be held at **Novel 1 on Level 1a of MITEC on 23rd June from 7pm onwards**. Exhibitors will get the chance to continue their networking during the reunion party. The event will feature a buffet dinner along with special dance and live band performances throughout the night.

Making our world more productive

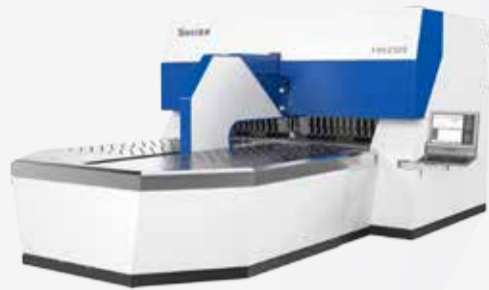

Microbulk Centralised gas supply solution

A convenient, fast, safe and reliable centralised gas supply solution for small cryogenic storage tanks. For customers whose gas consumption exceeds the gas supply from cylinders, the Microbulk ensures a more reliable and hassle free supply. This gas supply solution is designed for outdoor installations and comes with various storage capacities suited to the different customers needs.

PRODUCT HIGHLIGHTS

SHOW DAILY
22 JUNE | DAY 1

HIGH-PERFORMANCE PANEL BENDER

Full touch man-machine interface, powerful cnc system.
Fully automatic mold change function, quickly adapt to the change of workpiece size.
Multi-link transmission technology Built-in automatic compensation system
Economical, stable and reliable, cost-effective

AM MACHINERY SDN BHD
BOOTH NO : 3125

BALLUFF

INDUCTIVE & CAPACITIVE SENSORS

Since 1921 Balluff became an innovative leader in the development and manufacturing of automation equipment worldwide. Our products cover the areas of electronic and mechanical sensors, linear transducers, RFID-systems, industrial networking devices, machine vision and various cables and automation accessories.

BALLUFF AUTOMATION SDN BHD
BOOTH NO : 4240

PLM

DTS offers full suites of Siemens NX solutions that encompass CAD, CAM, CAE, Teamcenter, and Simulation products that is flexible and powerful integrated solution that helps deliver better products faster and more efficiently.

DREAM TECHNOLOGY SYSTEM
BOOTH NO : 4155

INDUSTRIAL AUTOMATION & DIGITALIZATION

An automations and digitalization company that provide simple, reliable and cost-effective industrial digital-automation solutions. We help manufacturers automate the process & make fast, accurate decisions by transforming data into actionable insights and embracing manufacturers towards new productions techniques and business-model.

EA MAX SOLUTIONS SDN BHD
BOOTH NO : 4249

CHITTAK TUBE LASER CUTTING MACHINE (CTK-A15-LN)

CHITTAK TUBE LASER SEMI-AUTO FEEDING CUTTING MACHINE <MODEL: CTK-A15-LN>
Machine Advantage / Machine Feature
High-speed machining, high machining accuracy
Double chuck straddle cutting, short tail
Fast feeding and changing speed

HIGHRISE INDUSTRIES SDN BHD
BOOTH NO : 3130

I-linear Automation Sdn Bhd

KOGANEI AUTO HAND CHANGER MJC SERIES

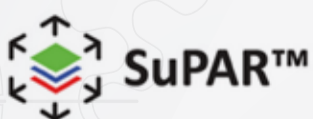

Auto Hand Changer allows robots and automated equipment to change hands and tools automatically. Compact and lightweight to help speed up robots for improved productivity.

Auto Hand Changer MJC Series

Auto hand changer MJC series
Compliance light
Direct piping specifications
Specialized adapter
Electric hand
Flat type

I-LINEAR AUTOMATION SDN BHD
BOOTH NO : 4150 &4152

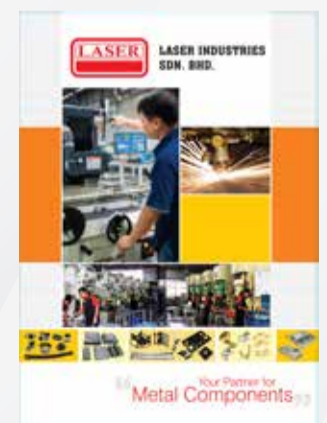

SuPAR is an augmented reality software that works as an Innovative Visual Quality Inspection Tool for remote inspection, rapid error detection and digital communication. Basically, you match the actual part with the details of the CAD drawing in real time whereby you can immediately report the findings. This interactive mobile inspection tool is most suitable for quality checks and geometry inspections in the automotive industry.

INTEC PRECISION EQUIPMENT PTE LTD
BOOTH NO : 4389

SHEET METAL FABRICATION

We're one of the leading one-stop sheet metal manufacturing factory in Malaysia. Our core competencies now included product design and development, stamping tool and die design and fabrication, metal stamping, laser-cut, welding, polishing, powder coating, sub assembly and final testing.

LASER INDUSTRIES SDN BHD

PRODUCT HIGHLIGHTS

SHOW DAILY
22 JUNE | DAY 1

BOILER SYSTEM

- Quick Steam : Within 5 minutes of ignition dry steam generated 98%
- Heating Surface Area Greater than 20%
- Boiler Combustion Chamber : Rectangle (Tunnel Structure)
- Suitable for renewable fuel burner
- The world's first front sides 5

CHANGHWA ENERGY CO LTD
BOOTH NO : 3280

DIESEL GENERATOR SET

- Performance
- Capacity 5kW - 1,000kW (order production over 1,000kW) / Voltage 220VAC - 11,000VAC / Frequency 50/60Hz
- Applications
- For medium/large ships and naval vessels, for industrial use, and for power plants

HANSUNG S&I
BOOTH NO : 3370

PRESSURE CONTROL VALVE

A pressure control valve that prevents overload and adjusts the 1050 bar high pressure of the marine engine fuel supply line to the required pressure as a safety device.

HYSG
BOOTH NO : 3372

100KW FOR UAM

High efficiency eco-friendly electric Motors: Axial/Radial type, Outer/Inner type that satisfy the customer requirements of motor power and suitable for the usage environment. (1kW-150kW)

KSEP
BOOTH NO : 3282

AIR COOLING VEST

Kyoungdo's air cooling vest coupled with vortex tube type personal air conditioner supplies cooling air in a workplace where air compressed line is equipped through air distribution hose installed on the air vest and keep worker's body cool and pleasant.

KYOUNGDO CO LTD
BOOTH NO : 3291

CONCRETE BOOM PUMP

Our concrete boom pump line up offers a complete range from 16m(3section) to 65m(6section) with minimum footprint on both stabilization and emission. Our products are well known of it being one of a kind as they are fully customizable depending

KW CONCRETE PUMP
BOOTH NO : 3283

CUTTING OIL TANK CHIP CLEANER

A device that simultaneously sucks sludge and cutting oil in a cutting oil tank using AIR to collect sludge in a SUS filter inside the "clean master" and returns the cutting oil to the cutting oil tank.

MST CO LTD
BOOTH NO : 3289

SUPERGUN

Compared to air blow gun, SUPERGUN has three operation functions such as blowing, suction, and blowing-suction at the same time.
