# METALTECH'S STRONG POST-PANDEMIC RETURN REINFORCES ITS IMPORTANCE

## TO THE INDUSTRY

Despite having to take a two-year hiatus due to the pandemic, METALTECH and AUTOMEX's return to a physical exhibition this week has highlighted the pivotal role that these landmark events continue to play for companies within the metalworking, machine tools and automation industries.

With these trade fairs providing the biggest marketplace for all major industry players to congregate, visitors have found METALTECH and AUTOMEX to be the best opportunity to meet a wide variety of suppliers under one roof and discover all the latest and upcoming industry trends and technological developments.

*"At METALTECH and AUTOMEX, I am able to source relevant industry knowledge and insight. All the needs of our company can be met here, from material supply to Industry 4.0 machines and automation,"* said Teo Kai Lung, an engineer from SE Micro Engineering Sdn Bhd.

At the same time, exhibitors have relished the opportunity to once again meet face-to-face with their customers and introduce their latest innovations to top industry buyers.

*"This is the place where we can bring and setup our machines so that customers can come to learn the new and advanced technologies in the market and discover solutions for their business,"* said Evin Chong, General Manager of Cairnhill Metrology Sdn Bhd.

Having been around for close to three decades, METALTECH has also provided the ideal platform for creating a close-knit community and a spirit of cooperation amongst all industry players.

*"Everyone has been looking forward to coming back, not only for the visitors, but also to socialise amongst ourselves as exhibitors. It's always great to come and see familiar faces from the industry here,"* said Khoo Siew Fang, Country Manager for Hexagon Measurement Technologies Sdn Bhd.

Given their importance to the industry, METALTECH and AUTOMEX have continued to draw in large crowds, with more than 3,700 unique visitors arriving at MITEC today. Those that have yet to attend still have one more day to seize the many exciting opportunities here, so don't miss out!

## More Visitors Using **VIRTUAL ELEMENTS** of Hybrid Exhibition

METALTECH is the first exhibition of its kind to offer a hybrid experience to its visitors, having implemented a special virtual exhibition area within Hall 2 and offering a mix of both physical in-person talks as well as virtual seminar sessions.

The virtual exhibition area offers visitors a chance to digitally browse hundreds of participating exhibitors from around the world on specially provided workstations and review their products and company profiles within this virtual marketplace. They also have the chance to interact with these exhibitors via direct messages or video calls.

An increasing number of visitors have begun utilising the functionalities of the Virtual Exhibition since the start of the week, with close to 100 users logging in on the third day. Don't miss your chance to use this innovative virtual platform to discover new opportunities for your business on the final day of METALTECH tomorrow!

## Don't Miss the Final Day of METALTECH and AUTOMEX Tomorrow!

Tomorrow is your final chance to meet, greet and generate business opportunities with all the top players from the metalworking, machine tools and automation industries at MITEC. Come join us on Saturday from 10am - 5pm and enjoy all the facilities and amenities that have been prepared for your comfort and convenience, including a variety of food trucks, special networking areas, dining lounges and many more.

**SEE YOU HERE TOMORROW!**

# EXHIBITORS INTERVIEW

“

We took up this exhibition quite easily because we really want to help trying to expose welding technology and also robotic technology to businesses, especially to SMEs. In spite of coming back after two over years of absence, I think this exhibition is a good size - not too huge, not too small. There are also a wide variety of industry players here, from automation, machine equipment and things like that. I think it's a good job and we are happy.

”

**ISAAC YEO**  
Director  
TSM Robotics Automation Pte Ltd  
Singapore

“

We have been supporting METALTECH for many years since our establishment in 2007. This is the biggest event for Malaysia and we are pleased to participate as we have received quite good response most of the time from our participation. We have some prospective customers that we had already approached earlier and they will be coming here to METALTECH to confirm about their selection. So this is a good opportunity for them to see our presence here and it gives them more confidence to purchase our equipment.

”

**KHOO SIEW FANG**  
Country Manager  
Hexagon Measurement Technologies Sdn Bhd  
Malaysia

“

METALTECH has been a household brand in our industry and a lot of our customers and users will look forward to attending this event each year. So far, the last two days have been good (for us to meet potential buyers), its beyond our expectations. We didn't put too much expectations into it because it's a restart after two years but so far we are happy with the response.

”

**TEE QUN SHENG (ROBERT)**  
General Manager  
Hasil Karya Sdn Bhd  
Malaysia

# VISITORS INTERVIEW

“

I think METALTECH is great. After a few years without physical engagement, even though we did join the Virtual Exhibition for two years, it is great to interact face to face with sellers again. METALTECH is a good platform for industry players and also service providers to meet so that we can find new solutions. I found a few great opportunities for our company here, such as oil cleaning, robotics and measurement solutions.

”

**AZARI BIN ASHAK**  
Vice-President  
Highly-Marelli Malaysia Sdn Bhd

“

At METALTECH and AUTOMEX, I am able to source Arelevant industry knowledge and insight. All the needs of our company can be met here, from material supply to Industry 4.0 machines and automation.

”

**TEO KAI LUNG**  
Engineer  
SE Micro Engineering Sdn Bhd

“

We have come here to look for solutions for our CNC machines, such as automatic bots and so on. So far it has gone well and we have found what we wanted. This METALTECH is also a good platform for us, as a small company, to introduce ourselves to the industry.

”

**MUHAMAD YUSRI BIN MADI**  
QAQC Engineer  
Value-Added Industries (M) Sdn Bhd

## United Parcel Service (M) Sdn Bhd

From the smallest box to the largest pallet, we're here to help you get those important shipments where they need to go, when you need them there.

**Visit UPS at booth 3345**

# PRODUCT HIGHLIGHTS

SHOW DAILY  
24 JUNE | DAY 3

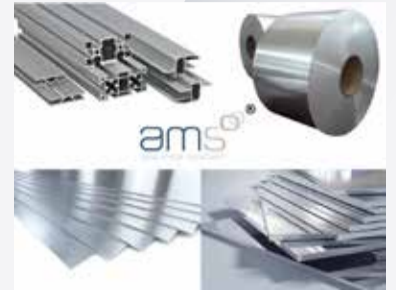

### IOT SOLUTIONS

Designing automated and IOT based facility management solutions by utilizing the latest automation technologies available in the market

**ADVANCED MICROELECTRONIC SOLUTIONS (AMS) SDN BHD**  
BOOTH NO : 4253

### ALUMINIUM RODS, BARS, COILS, SHEETS AND EXTRUSION PROFILES

AMS provides solutions and caters the needs of its end users by customizing products to their requirements, in different forms such as Slitted Coils, Cut-to-Length, Sheet, Clad Materials, Aluminium Plates and various Aluminium Extrusion Profiles etc.

**AMS LIGHT METAL SDN BHD**  
BOOTH NO : 4215

### CALIBRATION SERVICE

Calibrate your equipment at our internationally recognised ISO/IEC 17025:2017 accredited laboratory.  
- Based on BS EN ISO 22232-1:2020  
- Ultrasonic Testing Flaw Detection (UTFD) & Phased Array Ultrasonic (PAUT) Equipment calibration  
- Fast turnaround within the APAC region

**C. MELCHERS GMBH & CO., MALAYSIA BRANCH**  
BOOTH NO : 3408

### IN-SIGHT 2800 VISION SYSTEM

The In-Sight® 2800 vision system combines deep learning technology with traditional rule-based vision tools to solve a wide range of inspection applications from simple presence/absence detection to complex categorization and sorting problems, with no experience needed.

**COGNEX MALAYSIA SDN BHD**  
BOOTH NO : 3155

### PROVIDE COATING SERVICES

YOUR TRUSTED TEFLON COATING PROFESSIONAL, EMPICO'S PTFE, PFA, FEP, PFA, ETFE COATING. OUR REMARKABLE QUALITY AND INTEGRITY WITH GREAT CARE, GUIDELINES AND STRINGENT QUALITY CONTROL (BUREAU VERITAS ISO 9001 SINCE MARCH 2010) TOWARDS THE DELIVERY OF OUR COATING SOLUTIONS.

**EMPICO COATING SDN BHD**  
BOOTH NO : 4209

### EXPERIOR SMART AUTOMATION (EXSA)

The Experior Smart Automation (ExSA) system is a solutions suite that is designed to enable rapid decision making and real-time data-driven insights for manufacturing. ExSA is modular and can be customised to balance IR4.0 adoption to scale within the constraints

**EXPERIOR TECHNOLOGY SDN BHD**  
BOOTH NO : 4153

### HANGER SHOT BLASTING MACHINE

The Hanger Shot Blasting Machine is suitable for clients who are aiming to achieve cleaning and/or removal of impurities from large, heavy cast iron and steel castings. Besides the standard cleaning tasks, this machine is applicable for shot-peening of various work-pieces, these include gears and industrial spare parts

**GMSB ENGINEERING SDN BHD**  
BOOTH NO : 4329

### YAMAHA SCARA ROBOTS

YAMAHA YK-XE series SCARA Robots - Low-Cost High-Performance models with an arm length ranging from 400 mm to 710 mm. Easy to use and maximum payload contribute to optimize application for Palletizing, Loading and Unloading, Assembly and Vision Inspection.

**IKAA AUTOMATION SDN BHD**  
BOOTH NO : 4043

# PRODUCT HIGHLIGHTS

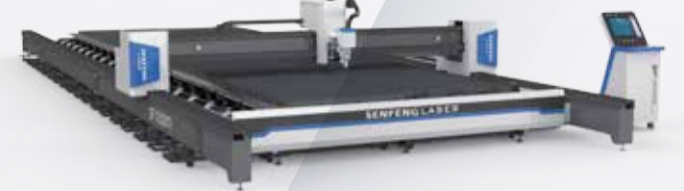

SHOW DAILY  
24 JUNE | DAY 3

### OIL SEAL

A device using oil as the sealing medium to prevent the passage of fluid from one chamber to another. Such as : Piston Seals, Rod Seals, Rotary Seals, Grease Seal, Valve Seals, Radial Shaft Seal, Crankshaft Seal, and many more...

**J.R. AUTO OIL SEALS SDN. BHD.**  
BOOTH NO : 4342

### ULTRA LARGE HIGH POWER GROUND RAIL LASER CUTTING MACHINE

Our Ultra Large High Power Ground Rail Laser Cutting Machines are equipped with industrial leading cutting-edge technology that are widely used in various industries such as Sheet Metal, Automotive, Marine, Aviation, Construction, Railway, Industrial Bridge, Medical Machinery, and others.

**KOBECO MACHINE TOOLS SDN. BHD.**  
BOOTH NO : 3210

## Autonics

### SAFETY LIGHT CURTAINS - SFL SERIES

The SFL series safety light curtains are installed in potentially dangerous or hazardous areas to safeguard personnel from injury. Various detection models (finger/hand/body detection) and safety functions are available for diverse applications.

**MAL-AUTONICS SENSOR SDN BHD**  
BOOTH NO : 4007

Empowers businesses with innovation solution from a holistic lifecycle management approach through digital transformation solutions in design, engineering, simulation, production and manufacturing space.

**MAWEA INDUSTRIES SDN BHD**  
BOOTH NO : 3140c

### MEASUREMENT SOLUTIONS PROVIDER IN MALAYSIA & SINGAPORE

MSP METROLOGY was one of the ISO/IEC 17025 Accredited Calibration laboratories ( under no: SMM 1066) to provide on-site calibration services. Reading correction during calibration consider one of our strengths in this market. We are also the one of laboratories

**MSP METROLOGY (M) SDN BHD**  
BOOTH NO : 2204

## Oriental motor

### Electrical Motor

Oriental Motor was the first manufacturer in Japan to develop a standard line of small precision motor. Over the years, we expanded our product range beyond AC Motors, fan motors, control motors till complete system. Visit our booth 4174 !

**ORIENTAL MOTOR MALAYSIA SDN BHD**  
BOOTH NO : 4160

### UNINTERRUPTIBLE POWER SUPPLY (UPS)

Owning an UPS is a high CAPEX and high maintenance cost affairs. NO WORRY, UPS Leasing/Rental (OPEX) is available with ZERO upfront cost !! Talk to us at booth no 2223

**POWER SOLUTIONS TECHNOLOGY SDN BHD**  
BOOTH NO : 2223

## SmartMore

### SMORE SMART INDUSTRIAL PLATFORM

The platform is a visual inspection platform providing a toolset that can support and elevate the entire manufacturing process. Based on SmartMore's leading deep learning capabilities, the platform has been applied to over 1,000 industrial application scenarios.

**SMARTMORE INTERNATIONAL**  
BOOTH NO : 4255

# PRODUCT HIGHLIGHTS

SHOW DAILY  
24 JUNE | DAY 3

## tem

### UNIVERSAL ROBOTS

Universal Robots UR5e and other automation products available for demonstration.

**T.E.M. ENGINEERING GROUP SDN. BHD**  
BOOTH NO : 4000

## TAKAMAZ

### J-WAVE PLUS 4-INCH CHUCK GANG SLIDE CNC LATHE WITH AUTO LOADING

CNC 1 SPINDLE 1 SLIDE PRECISION LATHE  
Excellent cost performance, Surprisingly compact thanks to incorporation of a 4-inch, gang type, built-in motor spindle!! A machine with advanced functions specialized in small part production makes its debut.

**TAKAMATSU MACHINERY**  
BOOTH NO : 3250

## TotalEnergies

### SPIRIT 5000

SPIRIT 5000 is a new water based micro-emulsion, optimized for general machining and grinding. It has been specially designed for cast iron, steels and aluminum. Its technical performances enable more efficient operations for a better productivity.

**TOTALENERGIES MARKETING MALAYSIA**  
BOOTH NO : 3315

### INJECTION MACHINE SCADA SYSTEM

Monitor equipment's power consumption for maintenance purpose and improve the machines working efficiency

**ZI LIAN (MALAYSIA) SDN BHD**  
BOOTH NO : 4169

### KOMPAC BLASTING MACHINE

Our Kompac 750 is a blasting machine of low cost/maintenance and simplicity. It comes fully assembled with in-built dust collector. Just plug in the 13 Amp 3 Pin Plug and the compressed air-line and the machine is ready to use.

**ABRASIVE ENGINEERING PTE LTD**  
BOOTH NO : 4386

### KITAMURA HX250iG

AISHMO GROUP is the authorized distributors of world class machining centers from KITAMURA - Japan , with wide range of VMC , HMC , 5 AXIS & Double column machines known for reliability, world class accuracy & solid design.

**AISHMO MACHINE TOOLS PTE LTD**  
BOOTH NO : 4384

## Auk.Industries

Deep data. Feather-light IoT.

### IOT-POWERED OPS-ANALYTICS SOLUTION

The universal plug-and-play IoT system can be deployed onto any machines without additional investment in IT-infrastructure. The software analytics platform is ready-to-use and can be set up in a day.

**AUK INDUSTRIES**  
BOOTH NO : 4382

## ACTROX

### VSM ACTIROX

VSM ACTIROX: Maximum stock removal using geometrically shaped ceramics grain.

**BAN CHU LEONG TECHNOLOGIES PTE LTD**  
BOOTH NO : 4383

# PRODUCT HIGHLIGHTS

SHOW DAILY  
24 JUNE | DAY 3

### MARKFORGED METAL AND COMPOSITE 3D PRINTER

Reinvent Manufacturing with the Markforged 3D printers with the use of Composites and Metal to print repeatable, production-quality parts using materials curated for durability and strength. Find out more at [www.chemtron.asia](http://www.chemtron.asia)

**CHEMTRON PTE LTD**  
BOOTH NO : 4378

### STRATASYS F770

The Stratasys F770 makes printing large, complex parts affordable, reliable and easy. It offers one of the largest print volumes to build large parts or sizable assortments of smaller parts.

**FLEXMECH ENGINEERING PTE LTD**  
BOOTH NO : 4376

### NOGA SOFT GRIP DEBURRING SET

Post process for cleaning off burrs (debur) after 3D printing or general production. Versatile with heavy and light duty S & N blades. Ergonomically held handle with internal storage for spare blades.

**INTEC PRECISION EQUIPMENT PTE LTD**  
BOOTH NO : 4389

### OGP SMARTSCOPE FLASHCNC 300

OGP SmartScope® Flash™ CNC 300 is one of the most versatile Bench-Top Metrology Systems. With Z-axis of 250 mm to accommodate large parts.

**OPTICAL GAGING (M) SDN BHD**  
BOOTH NO : 4390

### ALUMINIUM ALLOY SHEET, PLATES, SECTION & PROFILES

SL Metals is a leading aluminium alloy distributor that supplies high quality sheets, plates, section & profile of different grades - 1100, 3003, 5052, 5083, 6061, 6082, 7075 and MIC6 among other products, coupled with cutting services for cut-to-size requirements.

**SL METALS GROUP**  
BOOTH NO : 4380

### ADVANCE MANUFACTURING LINE (AML)

Convert existing precision factory to a Smart unmanned manufacturing factory with AI remote central planning, control and monitor. best for high mixed low volume type of production. efficiency can improve more than 100% with less human intervene.

**SMT TECHNOLOGY PTE LTD**  
BOOTH NO : 4388
