Puma Laser: High-tech, Cost-efficient

LVD's Puma laser cutting machine provides high-technology features and performance at a lower total cost of ownership. Offered with 3-, 6- or 12-kW laser, in three size formats, and is automation ready. Demonstrated at Metaltech will be the Puma 3015 12 kW.

Puma makes laser cutting as cost-effective as possible. Its welded steel, mono-frame construction provides stability for quality cutting. High machine dynamics and process reliability ensure high output.

Its shuttle table allows one table to be loaded/unloaded while cutting on the other. Puma can be equipped or retrofitted with any LVD MOVit automation system.
