CELEBRATING A TRIUMPH OF GLOBAL PROPORTIONS

Thank you for making METALTECH & AUTOMEX 2023 a truly resounding triumph! We are thrilled to have welcomed 18,234 unique visitors from 49 countries and regions across the globe, which is 48.44% higher than last year and significantly greater than our anticipated turnout of 15,000.

Such overwhelming response from industry leaders, experts, buyers and professionals reflects the unparalleled significance of METALTECH & AUTOMEX and reaffirms this exhibition as a must-attend event for all industry players. Now, even as we approach three decades of being at the forefront of innovation, our commitment to growing this exhibition remains stronger than ever before.

As the catalyst for digital transformation and technological advancement, we are proud to embody the spirit of Malaysia's Industry 4WRD vision. By fostering collaboration and showcasing cutting-edge solutions, we will continue to be the trailblazer, the game-changer, and the driving force behind industrial transformation in Malaysia and across the region.

We extend our heartfelt gratitude to all participants, exhibitors and visitors who contributed to the success of METALTECH & AUTOMEX 2023. We are especially thankful to our international participants that made the effort to attend

and make this event a diverse global gathering of industry leaders.

Our appreciation also extends to our esteemed sponsors, who have placed their trust in the influence of our exhibition and the far-reaching benefits it generates. These include our Platinum and Non-Woven Bag Sponsor LVD Sdn Bhd, Gold Sponsor Monitor ERP Sdn Bhd, Bronze Sponsor Tigatan Resources (M) Sdn Bhd, Lanyard Sponsor Chevron Malaysia Limited, Industrial Gas Sponsor Linde Malaysia and official Wellness Partner Healthland.

We are further grateful to have received the endorsement of MATRADE and other government agencies, who continue to recognise the vital role of METALTECH & AUTOMEX in propelling progress for many various industries that contribute significantly to the nation's GDP and economic growth.

It has been heart-warming to witness such enthusiasm from across the industry. We hope to extend and expand our collaboration for many more years to come. Let us continue working hand-in-hand to propel the manufacturing, machinery and automation industries to even greater heights!

“ Reflections on a Remarkable Experience ”

“

There are a lot of companies here that produce their own products, which makes the experience very interesting. There are Malaysian, Chinese and Japanese companies, amongst many others, so it has been great to discover all of them at this exhibition.
Alexander Kataev

Macro EMS Ltd (Russia)
Chief Automation Officer

VISITOR

”

“

METALTECH I think is the only exhibition in this field in Malaysia and that in itself is enough to make it important for us to participate. I thank the organisers for this fine exhibition – it should grow even further and we look forward to returning next year.

Torsten Bell
German Federal Ministry for Economic
Affairs and Climate Action
Manager

EXHIBITOR

”

“

For us, METALTECH & AUTOMEX provides valuable branding opportunities. Since we opened our Malaysian branch in 2020, we have wanted to gain exposure for our brand around Malaysia and Singapore. This is the biggest event for our industry in Malaysia so it makes sense for us to participate.

Alessandro Vespignani
OLI Fair East
General Manager

VISITOR

”

“

I think METALTECH & AUTOMEX brings together exhibitors from across many various industries, from oil and gas and manufacturing to engineering and other projects. It's very helpful for visitors from all types of industries related to engineering and manufacturing.

Forensic Engineer

VISITOR

”

“

METALTECH is of course the biggest show in Malaysia. We generally tend to attend one show per country per year and we can see that METALTECH is becoming bigger and it is quite a lot busier here than last year. We have been very happy with the response received.

Steve Bell

AVERICH ENGINEERING SDN BHD

BOOTH NO.: 2330

AVERICH SG90

AVERICH ENGINEERING SPECIALIST IN ON-SITE PORTABLE MACHINING, THERMAL SPRAY EQUIPMENTS, ENGINE REBUILDING, MATERIAL HANDLING EQUIPMENTS, CNC LASER MACHINING, MILLING AND LATHE MACHINING, ULTRASONIC CLEANING EQUIPMENTS, EV CAR CHARGER AND HYDRAULIC TOOLS.

BEST MAC ENGINEERING (M) SDN BHD

BOOTH NO.: 7277

BSQ Linear Motion Products

Specialize with Linear Motion Products like factory automation parts and materials, BSQ also develops and supplies core parts for semiconductor equipment and medical equipment. Furthermore BSQ promises to become a world-class company by further developing and applying professional technology.

CHIN FONG MACHINE (M) SDN. BHD.

BOOTH NO.: 3340

STRAIGHT SIDE SINGLE CRANK PRECISION PRESS ST1 SERIES

ST1 series could be widely used in the diversified production process, including metal drawing, bending, marking, flattening, and trimming. It is equipped with a high-performance wet clutch, which is also green energy and high-value product with environmental protection.

StarFlame™ The preferred cutting-edge solution

A compressed mixed fuel gas specifically designed for cutting with high efficiency. Easy to integrate. Cut at high speeds. High quality cuts. Low flashback risk. Lower cost.

Come visit us at at booth #4230, Hall 4 Level 1.

EA MAX SOLUTIONS SDN BHD

BOOTH NO.: 7000

Shop Floor Automation & Digitalization Solution

Supercharge your industrial operations with our expert system integration. We seamlessly combine automation and digitalization, unlocking efficiency and success. Experience the cutting-edge of industrial excellence with our tailored solutions. Elevate your business to new heights today.

DIGITALIZATION

Industry 4.0 Smart Factory Solution

- ✓ Shop-Floor Data Digitalization
- ✓ Process Transparency & Tracking System
- ✓ Machine OEE (Full) Performance Analysis Dashboard
- ✓ Remote Monitoring & Alerts

GET CARBIDE TOOL (M) SDN BHD

BOOTH NO.: 8166

CARBIDE CUTTING TOOLS

WE ARE PROVIDING THE ENTIRE STRING OF ENGINEERING PRODUCT AND SERVICES TO SERVE OUR CLIENTS WITH A CONVENIENT ONE STOP SOLUTION WHEN IT COMES TO PRECISION TOOLS MANUFACTURING.

ENGSUP AUTOMATION SDN BHD

BOOTH NO.: 7237

ABB/BALDOR, MAYR, LUYANG, HITACHI, KB PENTA

- ABB/BALDOR- Dc/Ac motor (Nema/IEC frame)
- MAYR- Clutch/Brake unit, Safety brake, Torque limiter, Coupling, Electromagnetic clutch/brake
- LUYANG- Small power Ac/Dc motor, Brake & clutch/brake motor, Helical gear motor, VS motor,
- HITACHI- Inverter, Ac Motor, Switches (Breakers/ Contactor)
- KB PENTA- Dc Controller

Name : VTX-10
Main Product Category: Tapping Center
Product Application Industry / Field: automotive and scooter components machining.

We develop 2 types of BBT-30 tapping center and the X axis travel is 1000mm and suitable for machining big components.

VTX-10 high torque type not only provides the machining torque equal to a medium-sized machining center, but also keeps its originally outstanding rapid traverse performance.

VTX-10 high efficiency type has outstanding spindle acceleration/deceleration performance, which provides fast spindle orientation to the tool changing point and dramatically saves cycle time.

Name : TB-2000YBC
Main Product Category: Multi-tasking Turning Center
Product Application Industry / Field: various industry.

TB series is the outstanding machine rigidity, it's the multi-tasking turning center with single power turret which standard equipped with 12 tool stations and linear Y axis to process milling function.

- 90 degree lathe structure allowing for good chip removal and controllability
- Low machine gravity center, allowing for overall structure to have good rigidity
- X/Y/Z-axis are orthogonal to each other, allowing for high straightness and positioning accuracy

GUANGDONG XINQUANLI LASER CNC EQUIPMENT CO., LTD
BOOTH NO.: 4215

Professional laser equipment Manufacturer

Guangdong Xinquanli Laser CNC Equipment Co., Ltd. (short of XQL) was established since 2006, located in Guangdong Province, CHINA, which is a leading manufacturer of fiber laser cutting machine, laser welding machine, and robot automation.

TIGATAN RESOURCES (M) SDN BHD/ KENDO
BOOTH NO.: 8200

Hand Tools & Power Tool Accessories

KENDO Tools, the leading hand tools and power tool accessories supplier from China, with ready stocks for fast delivery. Provides reliable tools with innovative design. Produced according to International standards at an affordable price. Visit us at Booth 8200.

Manufacturing solutions for smart electronics.

NX Smart Factory System

This digitized information helps you to see what is happening on your production floor in real-time, so you can standardize your workflow, enforce rules, and get immediate results. Try NX Smart Factory System to realize your smart factory easily!

SANYO DENKI CO., LTD.
BOOTH NO.: 7150

PB Closed Loop Stepping Motor and Driver

Features:

1. Equipped with high-speed EtherCAT interface
 2. Compact multi-axis driver can support up to 4 motors
 3. Able to simplify maintenance with battery-less encoders
 4. Shorter motion completion time
- Applications:
Semiconductor manufacturing equipment, laser cutting machines, general industrial machinery
